

I would like to object to the giving of precedence to LPFM stations over current FM translator service. K-LOVE, broadcasted in my area at 105.5, 89.1 and 100.9 FM provide several services to me as a resident and the entire community. As a resident, K-LOVE provides me with a Christian, and more importantly, family-friendly and clean radio station to play in my home and for my children without worrying about the bad language, sexual innuendos, questionable news stories and other risks inherent in listening to another translator service. If K-LOVE were not here to provide the community with a family-friendly alternative to secular radio, we would lose a valuable service and our kids would lose more of the moral-base which is so sorely lacking in today's community. This is also the reason that this service is in the public interest. It provides a variety to the normal stations, in addition to a family-friendly alternative.

Please do not displace my FM translators for KLOVE!!!
